

ZEPHYR CHILL HVAC

ZEPHYR PRO-SERIES

Designed for high-performance evaporative cooling and superior air quality, the ZephyrChill Multisided Pad Air Washer is a powerful and energy-efficient solution for industrial and commercial environments. With an airflow capacity ranging from 3,000 to 30,000 CFM, it is available in single and dual blower variants to suit diverse requirements.

KEY FEATURES:

- ✓ Multisided Pad Design – Maximizes cooling efficiency with enhanced air contact.
- ✓ Up to 5-Micron Filtration – Captures fine dust, pollutants, and airborne particles for cleaner air.
- ✓ Variable Frequency Drive (VFD) Compatibility – Enables energy savings and precise airflow control.
- ✓ Single & Dual Blower Variants – Customizable to match airflow needs.
- ✓ 3000-30000 CFM capacity options available.
- ✓ Efficient Humidification & Air Purification – Ensures a healthier and more comfortable environment.
